HC REC –

Lindholm thanked the school representatives for coming to meet with the board, he explained that the Town Board is looking at financials and debating on memberships again, but if they implement memberships the mats can't be left down each night. Messmer explained the tough thing with basketball in the rec center is that there are only two baskets and they need six baskets to run a smoother practice. Messmer said they have been looking at other ideas if they cannot have mats down in the Rec Center. Clanton stated they will roll up mats if needed and are looking at a new addition, but that is a process. Dagman stated that this is a community rec center and needs to be open for the community, the school has gotten away with cheap rent and the Town needs to try to recover some of the costs with the new heating/cooling system going in. Discussion was held on people being able to utilize the old school while wrestling mats are down in the Rec Center, Messmer will check on that with insurance and things. Lindholm suggested maybe the school either pay a daily fee or pay for all of the heating costs for the months that they have it rented. More discussion will be held at the October meeting.

ROCK CHIPS -

Smith got a call from Anderson Western asking if the Town would be interested in buying chips from their recent construction on Highway 79. He stated that we need to make an offer and will have to pay to haul them from Reva. We will not chip seal again until 2029, but when we do that, we generally must get the chips from by the Wyoming state line and then pay trucking. Smith will make an offer and check on trucking costs.

President Klempel adjourned the meeting at 6:42PM.

The next regular board meeting will be held October 14, 2025, at the Harding County Memorial Recreation Center.
